INTERVIEW WITH EMILIA BERRY FOUNDER OF PERMALINE COSMETICS

“ My greatest achievements so far, despite helping numerous European celebrities with beauty improvements, is helping cancer survivors and alopecia sufferers feel whole again. ”

I had the privilege to interview Emilia Berry the founder of PermaLine Cosmetics. They are the leading provider of cosmetic permanent makeup and medical micropigmentation in NYC and Emilia Berry has also been published in the German Vogue.

Permanent makeup makes you look younger and beautiful because it accentuates the look of your face. It remains at least 3 to 5 years so it saves time and money. Can you imagine waking up with the perfect eyebrows or full lips? Forget about eyeliner, mascara or eyebrow pencils. If you want to create a long lasting effect I highly recommend permanent makeup. Read the interview to find out more.

What inspired you to start your brand/business?

I have always loved beauty and wanted to improve what was available in the US to help people look and feel better about themselves

What is the brand's philosophy?

My brand's philosophy is to provide NATURAL results that improve a client's features without being obvious

What has been your greatest achievement so far?

My greatest achievements so far, despite helping numerous European celebrities with beauty improvements, is helping cancer survivors and alopecia sufferers feel whole again.
